A promise to **care**. A commitment to **deliver**.

We offer a complimentary **Sample Program** to help your patients identify the **"right product, right fit"** before their initial order.

## Bladder Control Pads

Bladder control pads are available for men and women in many sizes and absorbency levels. Pads are designed to attach to underwear or slip over and around the penis. These incontinence products are designed to absorb small amounts of urine "leaks or dribbles".

## Belted Undergarments

Belted undergarments are designed to absorb more than "just a dribble", but not quite a full void of urine. Held in place with either an attached elastic strap or refastened with re-usable strap and button.

## Protective Underwear

Protective disposable underwear for adults, often called "pull ups", are designed for moderate-to-heavy bladder control protection. Soft, cloth-like material is comfortable, yet provides security.

## Adult Briefs

Adult briefs, or adult diapers, are designed to absorb and contain a full void of urine and/or a bowel movement. We offer quality adult briefs in a variety of sizes and absorbencies.

## Underpads

Disposable underpads consist of soft absorbent material and a waterproof backing, used to protect a surface from urine or feces.

## Pediatric Offering

Our complete line of diapers and pull ups is designed specifically to meet the needs of babies, children and youths. Available in sizes from Premie (0 - 6 lbs.) to Youth XL (85 - 125 lbs.).
